

Hillhead sprint, 31.1.

The competition centre and parking are located at the northern car park of Hillhead (see map below).

There are no signs to the parking/competition centre, but if you follow Don Street all the way up the hill. Do not take the first left (main entrance to Hillhead), but the second left after you have passed the hilltop.

There will no blue minibus at the competition centre, so registration will be done at the parking where you will find AUOC members. If not pre-entered the payment is done here as well.

Registration is open from **11.00 - 11.30**. The first starts are at **11.30**. The finish will close at **12.30**.

As noted in the general information sheet, at the registration you are given your punching card, but only at the start you will be given a starting time to your card.

At the finish, an official will mark your finishing time to your card and your card will be then collected.

From the parking, there is a marked route (red ribbons) to the start. You must follow this path! It is **300 metres** to the start.

The map is A4, in a plastic bag cover with a scale of 1:4000. The map will be given to the competitor only at the moment of his/her start.

There are no separate control descriptions. The control descriptions are printed on the map.

The length of the course is **2.2km** with **16** controls.

The course crosses streets with traffic, so competitors must cross these roads with extreme caution. The competition area is also busy with pedestrians and possible cyclists. The competitor must pay attention these as well.

The results will be published later on AUOC Facebook page and/or grampoc.com.
